**Mergers and Acquisitions — M&A Definition**

Mergers and acquisitions (M&A) are defined as consolidation of companies. Differentiating the two terms, Mergers is the combination of two companies to form one, while Acquisitions is one company taken over by the other. M&A is one of the major aspects of corporate finance world. The reasoning behind M&A generally given is that two separate companies together create more value compared to being on an individual stand.

**Mergers & Acquisitions: Meaning, Importance, Examples...**

A merger and acquisitions (M&A) refers to the agreement that between the two existing companies to convert into the new company, or purchasing of the one company by another etc which are done generally in order to take the benefit of the synergy between the companies, expanding the research capacity, expand operations into the new segments and to increase shareholder value etc.

In corporate finance, mergers and acquisitions (M&A) are transactions in which the ownership of companies, other business organizations, or their operating units are transferred or consolidated with other entities. As an aspect of strategic management, M&A can allow enterprises to grow or downsize, and change the nature of their business or competitive position.

**Mergers and acquisitions — Wikipedia**

A merger occurs when two separate entities combine forces to create a new, joint organization. Meanwhile, an acquisition refers to the takeover of one entity by another. Mergers and acquisitions...

**What's the Difference Between Mergers and Acquisitions?**

The following is a partial list of IBM precursors, amalgamations, acquisitions and spinoffs.IBM has undergone a large number of such during a corporate history lasting over a century; the company has also produced a number of spinoffs during that time.. The acquisition date listed is the date of the agreement between IBM and the subject of the acquisition.

**List of mergers and acquisitions by IBM — Wikipedia**

A number of companies used mergers and acquisitions to grow and survive during the global financial crisis from 2008 to 2012. During the financial crisis, many banks merged in order to deleverage failing balance sheets that otherwise may have put them out of business.

**The Reasons for Mergers and Acquisitions — dummies**

A merger or acquisition is a major organizational change with the potential to alter many of the underlying processes behind how both businesses operate. If a detailed integration plan isn't in place when a transaction is made, the companies involved in the deal may function separately for longer than anticipated, resulting in increased costs over time.
