To that end, it examines the transcendental theology of Karl Rahner and asks about its implications for Catholic moral theology. It examines Rahner's existentials, fundamental, ontological characteristics of human nature that define it, make it specifically human nature, and distinguish it from all other natures.

noted moral theologian, has argued that Karl Rahner ' s influential theory of the fundamental option is of little practical use in actually attempting to live a holy and virtuous life. Thomas Aquinas ' account of the infused virtue of charity, she claims, offers a richer account of the Christian moral life and so is of greater practical use.

Karl Rahner (1904-1984) Karl Rahner was one of the most influential Catholic philosophers of the mid to late twentieth century. A member of the Society of Jesus (Jesuits) and a Roman Catholic priest, Rahner, as was the custom of the time, studied scholastic philosophy, through which he discovered Thomas Aquinas. From Aquinas' epistemology and philosophical psychology Rahner was introduced to the Aristotelian-Thomistic notion of abstraction.

Book Description: This book is intended to provide Christians and theologians with an access to Karl Rahner to unpack his thinking and to make a theological inspection of his work possible. In this respect it is essential to locate the central point of departure for the theology of Karl Rahner in the concerns and questions of human beings and, to take a cue from the key concept of the "anthropological point of departure," to make understandable the underlying tendency of Rahner ' s work.

This set the stage for Fuchs' work to achieve in moral theology what Rahner had accomplished in systematic theology. Fuchs was one of those who provided the foundations for the moral theology of the Second Vatican Council. He chaired the commission's majority report, only to have it rejected by Pope Paul VI in the encyclical *Humanae vitae*.
