Norrie Ellington has to pour herself into the case to bottle up a crafty killer . . . With her overlong stay at Two Witches Winery extended yet again, screenwriter Norrie Ellington wants nothing more than to lay low and avoid murder investigations at all costs. Then two neighborhood boys show up at the winery saying they ' ve discovered what looks like a dead body in a nearby woods, and Norrie ' s curiosity gets the better of her. When the body turns out to be a local labor manager and the sheriff suspects a neighboring winery of foul play, Norrie turns sleuth once again. Following the few clues found at the scene, Norrie soon learns that the victim had been charging exorbitant amounts for the seasonal workers he supplied to the vineyards, meaning any of the owners could have wanted him out of the way. And when another dead body is found, Norrie ' s dizzying list of suspects threatens to overwhelm her. But with the stakes higher than ever, her biggest fear may be that if the local sheriff doesn ' t kill her for meddling, there ' s a murderer on the loose who surely will . . . Praise for the Books of J. C. Eaton: " Engaging characters and a stirring mystery kept me captivated from the first page to the last. " —Dollycas, Amazon Vine Voice, on Divide and Concord " Well-crafted sleuth, enjoyable supporting characters. This is a series not to be missed. " —Cozy Cat Reviews on Death, Dismay and Ros é " A sparkling addition to the Wine Trail Mystery series. A toast to protagonist Norrie and Two Witches Winery, where the characters shine and the mystery flows. This novel is a perfect blend of suspense and fun! " —Carlene O ' Neil, author of the Cypress Cove Mysteries, on Chardonnayed to Rest " A thoroughly entertaining series debut, with enjoyable yet realistic characters and enough plot twists—and dead ends—to appeal from beginning to end. " —Booklist, starred review, on Booked 4 Murder " Enjoy this laugh-out-loud funny mystery that will make you scream for the authors to get busy on the next one. " —Suspense Magazine on Molded 4 Murder

From sage steppe to mountain forest to the waters of the Pacific Ocean, Oregon's diverse habitats host an equally rich diversity of bird life. BIRDING OREGON guides you to more than 250 of the best birding sites, telling you where to go, when to go, and what you will see when you get there. Whether you are a casual bird watcher or a hard-core lister, this guide will help you make the most of your travels through Oregon. To be included in the book, all of the sites had to meet three criteria. 1. The site must be on public land, or on land accessible to the birding public. Trespassing is not OK, even for birders. 2. The site must be accessible in a normal passenger car. Nothing spoils a birding trip faster than a punctured oil pan or a broken axle. 3. The site must provide consistently good birding, year after year. Good birds can show up anywhere on occasion. But if your time is limited, you want to visit sites that offer the best birding on a regular basis. In addition to the site guides, BIRDING OREGON includes a checklist of 543 species of birds and their seasonal abundance. The Resources section lists contact information for federal and state agencies, conservation and birding organizations, birding trails, and guide services.

Presents information how to spot and sidestep roadblocks on the entrepreneurial journey and sets readers on a path to startup success.

Refashioning "Knights and Ladies Gentle Deeds" seeks to offer a more determinate sense than traditional source study of just how much Spenser's Faerie Queene owed to Malory's Morte Darthur. Once widespread, the assumption of Spenser's debt to Malory came under enough heavy fire in the first half of this century to render it shunned. Until now, the only book-length study on the topic was Prof. Marie Walther's nineteenth-century German inaugural dissertation, Malory's Einfluss auf Spenser's Faerie Queene, which has never been translated into English. Though the question has received renewed interest in several recent essays by A. Kent Hiatt, the disproportionately brief entry on Malory in the Spenser Encyclopedia demonstrates how much is yet to be learned about the relationship between these two dominant works of adjacent centuries. While not neglecting the question of direct borrowings, author Paul Rovang applies a theory of intertextuality to probe how the poet responded to the chivalric romance themes, conventions, materials, and structures which he encountered in the Morte Darthur. Both works are treated not as monoliths, but as links in a network of texts and other cultural phenomena relating to chivalry. In this way, a fuller sense is given not only of how vitally connected the two works are, but of how Spenser "refashioned" the transmitted ideals and symbols of Arthurian knighthood for his own age.

From the physician behind the wildly popular NutritionFacts website, How Not to Die reveals the groundbreaking scientific evidence behind the only diet that can prevent and reverse many of the causes of disease-related death. The vast majority of premature deaths can be prevented through simple changes in diet and lifestyle. In How Not to Die, Dr. Michael Greger, the internationally-renowned nutrition expert, physician, and founder of NutritionFacts.org, examines the fifteen top causes of premature death in America—heart disease, various cancers, diabetes, Parkinson's, high blood pressure, and more—and explains how nutritional and lifestyle interventions can sometimes trump prescription pills and other pharmaceutical and surgical approaches, freeing us to live healthier lives. The simple truth is that most doctors are good at treating acute illnesses but bad at preventing chronic disease. The fifteen leading causes of death claim the lives of 1.6 million Americans annually. This doesn't have to be the case. By following Dr. Greger's advice, all of it backed up by strong scientific evidence, you will learn which foods to eat and which lifestyle changes to make to live longer. History of prostate cancer in your family? Put down that glass of milk and add flaxseed to your diet whenever you can. Have high blood pressure? Hibiscus tea can work better than a leading hypertensive drug—and without the side effects. Fighting off liver disease? Drinking coffee can reduce liver inflammation. Battling breast cancer? Consuming soy is associated with prolonged survival. Worried about heart disease (the number 1 killer in the United States)? Switch to a whole-food, plant-based diet, which has been repeatedly shown not just to prevent the disease but often stop it in its tracks. In addition to showing what to eat to help treat the top fifteen causes of death, How Not to Die includes Dr. Greger's Daily Dozen—a checklist of the twelve foods we should consume every day.Full of practical, actionable advice and surprising, cutting edge nutritional science, these doctor's orders are just what we need to live longer, healthier lives.
