Nurse Facilitated Hospital Discharge  
Lewis, Robin 2007-11-01 00:00:00 by Liz  
Lees . M&K Publishing , Keswick, UK ,  
2007 , 242 pages, ISBN 9781905539123 .

The potential for nurses to influence the process of patient discharge has long been recognized by the United Kingdom National Health Service (NHS). However, historically there have been a number of issues around facilitating hospital discharge that have presented a significant challenge to nurses.

## Discharge Paperback Paperback

Nurse facilitated discharge is the Zdelegation of responsibility for the discharge of a patient according to an agreed plan with specific criteria. The plan must be agreed by the doctor in charge of the patients care and the nurse must be willing to accept the delegated role [ (Lees, 2011, p 18).

The key principles of effective discharge ...  
- Nursing Times

The process involved the medical team identifying patients suitable for nurse facilitated discharge and clearly defining criteria to be met along with an appropriate time frame for attainment thus allowing the nurses to facilitate the discharge. Following introduction of nurse facilitated discharge the total number of nurse facilitated discharges was collected and the comparison was made against the total number of discharges for the six months.
