Open Innovation Learning: Theory building on open sourcing ...
The open innovation learning exhibited by IBM in the decade of 2001-2011 provides a foundation for building both descriptive theories and normative theories. Legal protocols for open source licensing began in 1998, and "open innovation" became popular in the business press from 2003.

Open Innovation Learning: Theory building on open sourcing ...
Three descriptive theories have been built in parallel perspectives based on contrasting philosophies. Pursuit of a normative theory subsequently led to the proposal of additional hypotheses. Emerging theories of open innovation learning challenge a presumption that commercial and non-commercial interests are incompatible. Open sourcing while private sourcing is a demonstrable way of conducting a viable business. David Ing is a cofounder of the Trito Innovation Colab, centered in
