1. Once your group has finished observing and identifying the structures of the perch, it must be disposed of safely. If there are any excess fluids in your dissecting tray, please pour them down the sink with plenty of water. 2. Place all fish and fish tissues directly into the garbage bag provided by your teacher. 3.

Perch Dissection Lab Guide
DESCRIPTION: Learn how to do a perch dissection with this full-color guide. Color photographs from an actual dissection clearly depict external anatomy and general structure (showing main organs). 7 pages. This dissection guide was revised October 2014 with improved instructions and color images for a better dissection and easier identification of internal and external anatomy.

Perch Dissection Guide | Home Science Tools
perch are only slightly posterior and ventral to the pectorals. The entire, less pigmented ventral area is usually called the belly (not very scientific, but descriptive none-the-less). The dorsal fin is composed of two distinct sections; the anterior most section has spiny rays and posterior section has soft rays.

Perch Dissection - Michigan State University
Procedure (External Anatomy): Obtain a perch & rinse off the excess preservative. Place the perch in your dissecting pan. Label the anterior, posterior, dorsal, and ventral sides of the perch on Figure 1. Use your tape measure to determine the total length, fork length, and girth of your fish. ...
