12 Elements of an Award-Winning Photo | Best digital camera

Winning and Losing Photography Competitions. Competitions aren't for everyone. There are a small number of winners and there are an awful lot of losers. Since we're not meant to use that word in the PC times we now live in I'd better qualify what I mean. I think it's true to say that these days people are more sensitive to what they ...

Photography Competitions | How to Win and What makes a...

Like anything else in photography, follow the rule of thirds. Divide your frame into a grid like the one you see in the image above, then place your subject on one of the intersections to create balance in your photo. If you're having a hard time imagining the lines, you can switch on the grids on your camera screen to help you compose.

Then open them all as layers in the same photoshop file. Put the First image (with the rhino-player giving coin) at the bottom, take the second in line and put it in 50 opacity - and start masking around the bottom layer. When the mask is top-notch put layer in 100% opacity again. Keep doing this until you have your Multi-award winning picture.
