## **Plate To Pixel Digital Food**

5.0 out of 5 stars Plate to Pixel gets you in the mood

for food. Reviewed in the United States on August 8,

2011. Verified Purchase. Excellent. This is a

photographic specialty I want to get into, and this

book is an excellent intro. The author is a chef as well

as a photographer, so you get the goods from both

sides of the plate.

Hélène Dujardin. Tips and techniques for making food look good—before it tastes good! Food photography is on the rise, with the millions of food bloggers around the world as well as foodies who document their meals or small business owners who are interested in cutting costs by styling and photographing their own menu items, and this book should serve as your first course in food photography.

## **Plate to pixel: digital food photography & styling ...**

Author and food photographer, Helene Dujardin, walks readers through food photography and styling from beginning to end, in her new book, *Plate to Pixel: Digital Food Photography & Styling* (Wiley; May 2011; \$29.99; 9780470932131). From photography fundamentals such as composition, lighting, and exposure, to food styling tips on making food look as appetizing as possible, this book is the comprehensive resource to turn to when shooting food.

I am an avid consumer of food blogs. I read about 25 food blogs religiously and see a lot of food photography. More and more, food blogs are becoming uniform, with the same distressed-wood platforms and soft-light setups and props that suggest a rustic country kitchen turning out classic dishes for a group of close friends and family gathered around a centuries-old table used by generations past.
