In many Community Post's and the FAQ itself the SIP / UC Software Admin Guide and/or the Release Notes are referred as a source of additional Information. The SIP / UC Software Admin Guide contains detailed Information about any publicly available Parameters at the time of the Release. NOTE: Please be aware that some Parameters are NDA and their usability cannot be published as they have been developed for technology partners!

[FAQ] What is the relevance of the SIP / UC Software Admin ...

Enables transferring one conferee call to the other (in other words, Join the two conferees) when hanging up on a merged conference call. Otherwise, all the conferees are ended just like pressing the End soft key. Hanging up means either on-hook the handset while using the handset, turn off the speakerphone while using the speakerphone, or turn off the headset while using a headset.

IP Phone Settings - Polycom Documentation Library

Polycom phones can boot up without the use of configuration files, and you can specify a SIP server address and a registration address (the equivalent of a phone number) in a configuration file before or after the phone boots up.
