3 Rs of Environment – Reduce, Reuse and Recycle 3 R's of environment i.e., Reduce, Reuse, and Recycle, are essential parts of Waste Hierarchy. 3 R's works together to reduce the waste generated and for the improvement of the waste management process. In short, we can call three R's as "The principle of the waste management process."

3 R's of Environment - Reduce, Reuse, Recycle | Earth Reminder

Reduce means to minimise the amount of waste we create. Reuse refers to using items more than once. Recycle means putting a product to a new use instead of throwing it away. Rethink is about considering how our actions affect the environment. Recover refers to the practice of putting waste products to use.

583 Words Essay on Reduce Reuse Recycle

These and many more home based activities are where we can reduce wastage by a huge margin. Reuse: We can do a lot in this aspect. We buy so much stuff, and every single thing comes in some sort of packaging. Apart from plastic, we could reuse so much of the original packaging. We can reuse worn out clothes to create bags, sheets, and much more.
