Practice guidelines, which often address specific practice-related issues, help nurses understand their responsibilities and how to make safe and ethical decisions in their practice. The College provides a variety of educational and consultative services – including webcasts, teleconferences and Practice Support -- to help nurses understand the standards and how to apply them to their practice.

Standards & Guidelines

Clinical Practice Guidelines. “Clinical practice guidelines are systematically developed statements to assist practitioner and patient decisions about appropriate health care for specific clinical circumstances.” (Institute of Medicine, 1990) Issued by third-party organizations, and not NCCIH, these guidelines define the role of specific diagnostic and treatment modalities in the diagnosis and management of patients.

Clinical Practice Guidelines | NCCIH

Scope of practice defined in nursing. The Nursing Scope and Standards of Practice describe the “who,” “what,” “where,” “when,” “why,” and “how” of nursing practice: Who: Registered Nurses (RN) and Advanced Practice Registered Nurses (APRN) comprise the “who” constituency and have been educated, titled, and maintain active licensure to practice nursing.

Nursing Scope of Practice | American Nurses Association

Registered practitioners are also accountable to regulatory bodies in terms of standards of practice and patient care. Registered nurses and midwives are professionally accountable to the Nursing and Midwifery Council (NMC). The law imposes a duty of care on practitioners, whether they are HCAs, APs, students, registered nurses, doctors or others.

Accountability and delegation | Royal College of Nursing

The Clinical Practice Guidelines have been prepared by Health Canada's First Nations and Inuit Health Branch (FNIHB) for use by community health nurses employed by Health Canada providing primary care in isolated, semi-isolated, and remote First Nations communities.
