Since SAP version 3, the " Reference Implementation Guide " (IMG) for R/3 customizing has been available. Until this version, customizing had to be done in the menu paths of the system with considerably more hassle. This IMG screen is the backbone for SAP and the entries placed in it determine how the system functions.

[Sap SD configuration-guide - SlideShare](#)

The implementation guide is grouped by modules and business process that take place in every SAP R/3 module. In SAP, SAP Reference IMG provides all the required and important configuration steps to meet the functional areas of SAP. The SAP consultants or developers spends their major time in SAP Implementation Guide (IMG).

The IMG (Implementation Guide for R/3 Customizing) Lists all actions required for implementing the SAP System. Helps you to control and document the implementation. Please note that the paper version of the IMG is shorter than the online version. In the online system, additional information is provided. The SIMG_ALL structure is the library that contains all sections for implementing the various components (for example, Materials Management, Sales & Distribution, Financial Accounting).
