The book that inspired the major new motion picture Mandela: Long Walk to Freedom. Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's antiapartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. LONG WALK TO FREEDOM is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela tells the extraordinary story of his life--an epic of struggle, setback, renewed hope, and ultimate triumph.

Despite good industrial growth, the modern sector is unable to provide employment to the surplus and marginal labor force in an urban area. The surplus labor has made a valiant effort to carve out a niche for its own living and subsistence, within the urban economic system, undertaking a variety of informal productive activities known as the informal sector (ILO, 1972). In India, urban informal sector (IS) includes a number of activities in its ambits. Milk production and distribution is one such productive activity undertaken by a section of under-privileged urbanites (Gowalas). Small scale producers mostly carry out their production activities either in the far end of the urban boundaries or in the open spaces available in the cities and towns. Increasing urbanization has led to increase in the demand for raw milk and dairy products in most of the Indian cities. Our proposed study area - Greater Guwahati City has undergone massive population growth. Along with high urbanization, the total demand for milk consumption in the city has also increased. Due to high urbanization, high demand for milk as well as the lack of capacity of the formal milk producing sector (FMPUs) to meet the rising demand has made the role of the informal milk producing units (IMUs) become vital. Hence, the author felt the necessity to undertake a comprehensive study on the IMPUs in Guwahati City.
