Haunted by silence, a mute teenage girl is mysteriously given back her voice...and it is divine. "Lyrical and enchanting, SILENT ECHO will resonate in your heart long after you turn the last page. I can't wait for the sequel!" —Lorie Langdon, author of the DOON series. Rendered mute at birth, Portia Griffin has been silent for 16 years. Music is her constant companion, along with Felix, her deaf best friend who couldn't care less whether or not she can speak. If only he were as nonchalant about her newfound interest in the musically gifted Max Hunter. But Portia's silence is about to be broken with the abrupt discovery of her voice, unparalleled in its purity and the power it affords to control those around her. Able to persuade, seduce and destroy using only her voice, Portia embarks on a search for answers about who she really is, and what she is destined to do. Inspired by Homer's ODYSSEY, SILENT ECHO is an epic story filled with fantasy, romance and original music. "SILENT ECHO is a gripping, original read, with a heroine you won't forget. Katniss Everdeen -- watch out for Portia Griffin." —Erica Wagner, author of SEIZURE

A novel about the end of days full of surprising beginnings The world is living in the shadow of oncoming disaster. An asteroid is set to strike the earth in just one week's time; catastrophe is unavoidable. The question isn't how to save the world-the question is, what to do with the time that's left? Against this stark backdrop, three island teens wrestle with intertwining stories of love, friendship and family-all with the ultimate stakes at hand. Alexandra Coutts's TUMBLE & FALL is a powerful story of courage, love, and hope at the end of the world.

An expert on shopping behavior and motivation offers an analysis of consumers' tastes and habits,

discussing why point-of-sale purchases are still the most significant, and why Internet shopping will not replace the mall.

Attempts to elucidate the philosophy of Friedrich Nietzsche through the experience of his writings. After a chapter devoted to Nietzsche's style and the proper way to read the philosopher, chapters focus separately on his thoughts on knowledge and reality, morality and politics, and religion. Each chapter presents fairly lengthy selections from Nietzsche's works (in both German and English) and then proceeds to comment on the texts with the help of additional brief selections. Paper edition available (1-55753-157-9), \$24.95. Annotation copyrighted by Book News, Inc., Portland, OR.

The injured man lay limp and unconscious. A horrible feeling of guilt swept over Christy as she realized, "This happened because of me!" Christy Huddleston's dream was to teach the poor mountain children. But she never imagined that the treacherous journey from Asheville into the heart of the Smoky Mountains would bring danger into the lives of one mountain family. Join Christy as she crosses the bridge from the familiar world of city life to the strange, new world of Cutter Gap.

----- Based on Catherine Marshall's novel Christy—a New York Times bestseller—the Christy® of Cutter Gap series contains expanded adventures filled with romance, intrigue, and excitement.

The Minipig in Biomedical Research is a comprehensive resource for research scientists on the potential and use of the minipig in basic and applied biomedical research, and the development of drugs and chemicals. Written by acknowledged experts in the field, and drawing on the authors' global contacts and experience with regulatory authorities and the pharmaceutical and other industries, this accessible manual ranges widely over the biological, scientific, and practical uses of the minipig in the laboratory. Its coverage extends from the minipig's origins, anatomy, genetics, immunology, and physiology to its welfare, health, and husbandry; practical dosing and examination procedures; surgical techniques; and all areas of toxicity testing and the uses of the minipig as a disease model. Regulatory aspects of its use are considered. The reader will find an extensive amount of theoretical and practical information in the pharmacology; ADME and toxicology chapters which will help scientists and managers when deciding which species to use in basic research; drug discovery and pharmacology; and toxicology studies of chemicals, biotechnology products and devices. The book discusses regulatory uses of minipigs in the evaluation of human and veterinary pharmaceuticals, medical devices, and other classes of xenobiotics. It describes features of normal health, normal laboratory values, and common diseases. It also carefully elucidates ethical and legal considerations in their supply, housing, and transport. The result is an all-inclusive and up to date manual about the experimental uses of the minipig that describes 'How to' and 'Why' and 'What to expect in the normal', combining enthusiasm and experience with critical assessment of its values and potential problems.

Around 20,000 Jews, mostly from Germany and Austria, managed to escape Nazi persecution in the late 1930s and fled to Shanghai, where they found a safe refuge despite the increasing harassment of the Japanese authorities. In the face of difficult conditions, the Jewish refugees tried to arrange for both their material needs and the continuation of their communal cultural life. The 184 sources collected in the present volume document not only these efforts, but also the support of the local Jewish aid committees and other, mostly Jewish international aid organizations. The reactions of Nazi authorities in Germany and their representatives in Shanghai are included as well, as are impressions from the Japanese and Chinese sides. The documents – in German, English, Yiddish, Hebrew, Russian, and Chinese – are annotated, partially translated, and accompanied by introductions, maps, and photographs.

“Carol Goodman’s *Blythewood* is reminiscent of both *Harry Potter* and *The Diviners*, but in a way that doesn’t distract from the entertaining story within.”* After narrowly escaping death in the Triangle Shirtwaist Factory Fire, seventeen-year-old Avaline Hall is sent to Blythewood Academy, the elite girls’ boarding school in New York’s Hudson Valley that her mother attended years before. Ava hopes to solve the mystery of her mother’s death and its connection to the students who keep disappearing from Blythewood. But the school is not all that it appears . . . and neither is the handsome young man who saved Ava from the fire. What’s the meaning of the extraordinary powers Ava possesses? Who’s good and who’s evil? And who has the right to make that distinction? *review of *Blythewood* by Forever Young Adult

The three concepts mentioned in the title of this volume imply the contact between two or more literary phenomena; they are based on similarities that are related to a form of ‘travelling’ and imitation or adaptation of entire texts, genres, forms or contents. Transfer comprises all sorts of ‘travelling’, with translation as a major instrument of transferring literature across linguistic and cultural barriers. Transfer aims at the process of communication, starting with the source product and its cultural context and then highlighting the mediation by certain agents and institutions to end up with inclusion in the target culture. Reception lays its focus on the receiving culture, especially on criticism, reading, and interpretation. Translation, therefore, forms a major factor in reception with the general aim of reception studies being to reveal the wide spectrum of interpretations each text offers. Moreover, translations are the prime instrument in the distribution of literature across linguistic and cultural borders; thus, they pave the way for gaining prestige in the world of literature. The thirty-eight papers included in this volume and dedicated to research in this area were previously read at the ICLA conference 2016 in Vienna. They are ample proof that the field remains at the center of interest in Comparative Literature.
