(PDF) Social Identifications: A Social Psychology of ...

Social identity theory, in social psychology, the study of the interplay between personal and social identities. Social identity theory aims to specify and predict the circumstances under which individuals think of themselves as individuals or as group members. The theory also considers the consequences of personal and social identities for individual perceptions and group behaviour.

social identity theory | Definition, History, & Facts ...

Social identity is the portion of an individual's self-concept derived from perceived membership in a relevant social group.. As originally formulated by social psychologists Henri Tajfel and John Turner in the 1970s and the 1980s, social identity theory introduced the concept of a social identity as a way in which to explain intergroup behaviour. Social identity theory is described as a ...

Social identity theory - Wikipedia

Henri Tajfel's greatest contribution to psychology was social identity theory. Social identity is a person 's sense of who they are based on their group membership(s). Tajfel (1979) proposed that the groups (e.g. social class, family, football team etc.) which people belonged to were an important source of pride and self-esteem. Groups give us a sense of social identity: a sense of belonging to the social world.

Social Identity Theory | Simply Psychology

Identity is the qualities, beliefs, personality, looks and/or expressions that make a person (self-identity as emphasized in psychology) or group (collective identity as pre-eminent in sociology). [citation needed] One can regard the awareness and the categorizing of identity as positive or as destructive.A psychological identity relates to self-image (one's mental model of oneself), self ...
