Answers To

Collision Theory

Gizmo -

partsstop.com

What is the

collision

theory? It is

the idea that

Acces PDF

Student

particles have
to collide in
order to react
and they have to
collide hard
enough (with
enough energy to
break the bonds
- activation
energy). How
does a higher
temperature
increase the
rate of

Acces PDF

Student

reaction? When
the temperature
is increased the
particles have
more energy and
move quicker.
