A paper survey in black ink offers a better resolution than you'll find on any computer monitor, making it easier for respondents to read. If your target population is visually impaired and can't view text on a monitor, then a paper survey should be considered.

Which is More Effective: Paper-Based Surveys or Online ...

Drawing on a survey of more than 5,800 small businesses, this paper provides insight into the economic impact of coronavirus 2019 (COVID-19) on small businesses. The results shed light on both the financial fragility of many small businesses, and the significant impact COVID-19 had on these businesses in the weeks after the COVID-19-related disruptions began.

The impact of COVID-19 on small business outcomes and ...

In this survey, we provide a comprehensive overview of graph neural networks (GNNs) in data mining and machine learning fields. We propose a new taxonomy to divide the state-of-the-art graph neural networks into four categories, namely recurrent graph neural networks, convolutional graph neural networks, graph autoencoders, and spatial-temporal graph neural networks.

[1901.00596] A Comprehensive Survey on Graph Neural Networks

The collection of data via online surveys and forms is a much smoother, efficient, cost-effective procedure. But let's not completely discount paper surveys, they do have a place in the research environment and here we highlight a few important reasons.

Surveys: Online vs Paper - SmartSurvey Blog

Our survey provides a comprehensive overview of GNNs, for both interested re-researchers who want to enter this rapidly developing field and experts who would like to compare GNN models. To cover a broader range of methods, this survey considers GNNs as all deep learning approaches for graph data. Our contributions Our paper makes notable ...

JOURNAL OF LA A Comprehensive Survey on Graph Neural Networks

Most paper surveys are printed at a high resolution compared with what we see on the computer screen. With web surveys, people can use widely different screen resolutions, font size, and monitor size. They can even be filled out and submitted from a mobile phone. All you need is an internet connection.

Paper Surveys vs Online Surveys - Which One's Better?

This expansive survey provides market data insights that go beyond traditional surveys in benchmarking jobs that require information technology skills. It combines the best of both worlds—a skill and leveling and a positional approach to measuring pay for in-demand jobs. Information technology is a rapidly changing marketplace.
