The representatives from Gearstar, ATI and TCI all agreed that many of the same issues, like those found in the TH350 and TH400 transmissions, can affect the performance of the 700R4. However, the 4-speed automatic uses a throttle-valve (TV) cable as opposed to using a modulator to sense engine load like that found in the TH350 and TH400. It's also been noted that the kick-down cable and ...
