Agility Shift Inventory Assessment - Comparative Agility

When agile leadership and the first teams are in place you can start co-creating the agile organisation by weaving the organisational relational web (create groups that foster employee camaraderie, maximize your relational web potential, and improve the proximity between members of your relational web), Structuring for the agility shift (create opportunities to identify the bare spots, get input on barriers and enablers, and resist the urge to formalize) and las but not least expand ...

Book review: The Agility Shift | Henny Portman's Blog

To successfully transition to an agile operating model, business leaders should focus on four questions. ... Designing a blueprint is only the first step in

reconfiguring an organization to create value through agility. Putting the blueprint into action requires a major shift—categorizing teams as core or enabling. To make such a model work ...

Agility to action: Operationalizing a value-driven agile ...
Agility, in the simplest term, is the ability to adapt to change or respond to an outer stimulus in a speedy yet effective manner. It's the strength, coordination and balance of all the inner elements to react efficiently to something which is new, external and unprecedented. It's a mindset, a behavior – an iterative one.

People and Agility: Creating an Agile Workforce
These trademarks complement the findings from "How to create an agile organization." The old paradigm: Organizations as machines. A view of the world—a paradigm—will endure until it cannot explain new evidence. The paradigm must then shift to include that new information.

The five trademarks of agile organizations
