Symfony is one of the  
oldest and most popular  
PHP frameworks and  
it's still going strong.

# Read Free The Book Symphony

Sadly there aren't too many books on this topic, although *Symfony2 Essentials* offers a decent intro guide for beginners. I say "decent" because this book is pretty short with only 160 pages.

10 Best Books For Learning Symfony & Modern PHP Workflows

# Read Free The Book Symphony

The Symphony documentation is updated every single day by dozens of contributors. Having a team of volunteers translating all changes in near real time is almost impossible. However, translating a book like the one you are currently reading is more manageable as I tried to write about
