The next level for the smart factory is multi-dimension integrated IOT. IOT should not just connect simple data or measure only one parameter, it should be a multi-dimension connecting sensor. For example, take machine vibration. When I measure it, a multichannel Edge Device can intertwine vibration, acoustics, and current together.

The Factories of the Future: Five Expert Perspectives

If our supplier's factory is based in a country that was in "lockdown", NEXT accepted orders with an original ex factory date of 10 April 2020 (or before), up to a week after that country's lockdown was lifted ; Subsequent lockdowns that have impacted delivery dates have been treated responsibly and with consideration
