As you design your salary structure, it is important to consider all forms of cash compensation. Over 80% of companies develop their salary structures based on base salary, but almost 15% of companies develop their salary structures based on total cash compensation. Although the vast

Developing a Competitive Salary Structure

The history of the modern steel industry began in the late 1850s; steel has become a staple of the world's industrial economy. This article is intended only to address the business, economic and social dimensions of the industry, since the bulk production of steel began as a result of Henry Bessemer's development of the Bessemer converter, in 1857.. Previously, steel was very expensive to ...
