The Theological Implications of Climate Control ...  
Theology and modern climate science have had an uneasy relationship. In 1967, Lynn White Jr shocked many by arguing that a Western theology of 'dominion' had fuelled an ecological crisis.l Whether or not he was right in every respect, he showed the world that theology matters. He woke theologians up to what had been long neglected - the theology of creation. Though theology in the Eastern

Song of the prophets: a global theology of climate change  
This means that the relationship between humans and the natural environment, from a theological perspective, is likely to be a significant influence on how people think about climate change and...

The theological implications of climate control ...  
Climate change has complex effects on water supply and demand. The seasonal rhythms of streams and rivers have changed as winter precipitation falls increasingly as rain instead of snow, and as earlier spring temperatures cause snow in the mountains to melt earlier and faster. Climate change may mean that some places will experience more days with
