### The Wolf Sea - Wikipedia

The Wolf Sea is not as good as the first in the series and feels a little anti-climactic but is a necessary step to get to the third book in the series, which may well be better than even the first one. Still a good book, but not quite up to the standards of either its predecessor or successor.

A rough tale--the second in the Oathsworn series. Orm the Trader's thinking seems to be a tad more convoluted this time around...the reader is oftentimes as confused as he is, and the story set-up bogs down now and again. That said, the historical backdrop is commendable, and the action non-stop.
