With the new SC2 7x12 mini-lathe, Sieg's engineers have taken the basically sound design of the X2 mini-mill and enhanced it with a new belt-drive and brushless DC motor to make the new SX2 model mini-mill. The structure, components and operation of the X2 mill are unchanged, but the dramatically improved torque of

A full-size turret mill is, of necessity, a heavy, expensive piece of equipment, impractical for most individual owners due to space and/or monetary constraints. For hobby work, however, a so-called "mini mill" can perform very well. The chief limitation of a mini-mill is not so much the quality of the work it can
