Troubleshooting | Weber Grills

Weber DGV/DGAV Idle Setting Procedure Note: Before adjusting carburetor, be sure the engine is at operating temperature (choke fully off), air cleaner is removed, and vacuum lines are plugged off. The Weber DGV/DGAV idle speed screw should be adjusted to its preliminary set point before adjusting the idle mixture.

Weber 32/36 DGV DGEV DGAV Tuning : How-To Library : The MG ...

Observe the pump jet in the carburetor, and with your hand, work the carburetor throttle to the wide-open position. You should observe a healthy squirt of fuel from the pump jet. A single barrel carburetor will normally squirt a single stream; while a two or four barrel carburetor will normally squirt 2 streams.
