In the former category, the HomePod is excellent, with amazing sound and incredibly...

Apple HomePod review | TechRadar
That Apple does things in its own sweet time is no new discovery. But even by its own standards, the company arrived late to the wireless speaker party. But being late is perfectly acceptable if you're the life and soul when you arrive – and that's pretty much the story with the HomePod.

Apple HomePod review | What Hi-Fi?
Technically the best-sounding smart speaker, the Apple HomePod is a compact marvel that automatically adjusts its sound based on where you put it. Double-up in a stereo pair and, pound-for-pound...

Apple HomePod Review | Trusted Reviews
Up top is a touch-sensitive pad for controls that also lights up when you say the hotword. The Apple HomePod is a smart speaker, which means you have to connect it to your WiFi if you want it to work. Once you plug it in you'll need a device running iOS 8 or higher in order to set it up.

Apple HomePod review - SoundGuys
Reviewed Jul 2019 The Apple HomePod has a lot to prove to justify its higher price compared to many rival speakers. Apple has positioned the HomePod speaker as a music player first and foremost, aiming to set it apart from voice assistant-focused rivals such as the Amazon Echo and Google Home.

Apple HomePod wireless, smart and bluetooth speaker review ...
Apple's HomePod is the best-sounding wireless smart speaker available, and you can control it by voice using Apple's virtual assistant, Siri. But the HomePod is worth considering only if you're an...

Apple HomePod Review | Reviews by Wirecutter
HomePod sound quality. First and foremost the HomePod is a speaker. Everything else it does is a bonus. Apple's focus on designing the unit was squarely on audio rather than creating an...

HomePod Review - Macworld UK
The Good Apple's \$349 HomePod has excellent bass and consistently superior sound quality across a wide variety of music genres. The speaker is easy to set up and Siri can hear you from across a...

Apple HomePod review: Great sound, but it's trapped in ...
Apple HomePod review: Design The HomePod is a speaker designed principally for listening to music on, more so than any other smart speaker I've used, so it's somewhat appropriate that it's...

Apple HomePod review: A great speaker but not so smart ...
HomePod fans will be glad to discover, however, that Apple hasn't changed the look and feel too much. The new HomePod is covered in a familiar-looking mesh fabric in grey or white, just like the...

Apple HomePod Mini: Apple launches smaller, rounder smart ...
Apple does say the use of Dolby 5.1 and 7.1 channel surround sound will work with a single HomePod speaker, but the feature will work better with a pair of speakers paired for stereo sound...

Apple HomePod to get a major new feature, the new HomePod ...
Apple has announced the new HomePod Mini smart speaker and it's a much more enticing proposition than the original. One of the key new features is Intercom, which promises to enhance voice...

What is Apple Intercom? HomePod Mini's coolest new feature ...
The HomePod mini was set at a refreshingly affordable price by Apple, but we can't imagine the same policy will apply to a full-sized HomePod. The original cost around £329 and received a price...

Apple HomePod 2 - Release date, price, features and more
What the main HomePod won't have is the Ultra Wide Band feature Apple mentioned during its presentation. UWB allows for iOS products to sense when they're close to one another and talk to each...

Apple HomePod mini vs HomePod: What's the difference?
The Apple HomePod is a great speaker. It delivers rich, clear sound that will impress anyone who listens to it, and every facet of the way it's designed and delivers audio has been well thought...

Siri, smart home and verdict - Apple HomePod review ...
HomePod is a breakthrough speaker with high fidelity audio that adapts to its location. Both help you take care of everyday tasks with Siri, control your smart home, set up multiroom audio, and send Intercom messages to every room. HomePod and HomePod mini keep everything private and secure, and only listen for "Hey Siri."

HomePod - Apple
The HomePod is Apple's take on the smart speaker. The design is very Apple, so is the entire thinking around the product. It has a stunted cylindrical look and is much smaller than the Echo Studio which it will compete with in the Indian market. The fabric finish is soft and the speaker has a slight cushiony feel when you hold it.

Apple HomePod review: Listen to what you love, the way you ...
One of the great things about the HomePod is the fact that Apple keeps regularly updating the software and adding new features. As a result Apple's smart speaker has a lot more going for it than it...
