Wash your hands often with soap and water for at least 20 seconds. This is especially important after blowing your nose, coughing, or sneezing; going to the bathroom; and before eating or preparing food. Use hand sanitizer if soap and water are not available. Use an alcohol-based hand sanitizer with at least 60% alcohol, covering all surfaces of your hands and rubbing them together until they feel dry.

What to Do If You Are Sick | CDC

What to do when your filling falls out or your tooth breaks? Don't panic, but do contact your dentist immediately. The decision for the best treatment will happen after a thorough examination of the tooth and a consultation. Not

Ask your veterinarian to recommend a product that is appropriate for your animals. Try one of the many available products that make feces less palatable to dogs. Some work by imparting a foul taste to the feces, others contain enzymes that break down components of the stool that dogs find appealing, and some products combine the two approaches.
