Here are 10 tips to help you present your scientific work and leave the audience wanting more. 1. Set the stage. Get your equipment ready and run through your slides if possible (use the " speaker ready " room if one is available). If you ' ve never been in the venue, try getting there early and walk the room. Make sure you have water available. 2.

The key to an effective conference presentation lies in being well-prepared. Here are a few tips that will make the process smoother for you: 1. Write your paper with the audience in mind: A conference paper should be different from a journal article. Remember that your paper is meant to be heard, not read. Audiences typically have lower attention spans than readers; therefore, keep the content simple and straightforward.
